## Electronic

The CREEK MASTA (High Sides) is a v-nose model that is an extension from our standard nomad, taking this model to the next level. This model as the name suggests would be a good little boat for sleeking around the creeks and estuaries, with the part cast platform this gives a stable platform for flicking a lure, throwing a cast net or setting the crab pot. A Minn Kota plate on the front deck allows the use of an electric outboard and the part floor makes moving around a breeze. Take a look at the features and specifications of this model as it is sure to please.
